

OUR IDEA

Problem:

When families travel, they face many challenges:

- Hotels: Are they truly family-friendly? Do they offer baby cribs, play areas, or quiet rooms?
- Activities: What suits the children's age? Are there kid-friendly museums or amusement parks?
- Flexibility: What happens if it rains or the kids get tired?

→ More stress for parents, less relaxation for the whole family.

Solution:

Our AI-powered travel planner takes the hassle out of trip planning by creating a personalized route tailored to the family's needs and the children's age.

- ✓ Personalized recommendations
- ✓ Flexible daily schedule
- ✓ Community feedback
- ✓ Offline mode

With our Smart Family Trip Planner, parents save time, reduce stress, and can finally focus on what truly matters: a relaxed and unforgettable trip with their children.
